

CDI Medical Products Selection Guide

CMD105 - 950W Power Supply

- Patient contact application - Ultrasound Supply
- 950 watt nine output (± 101 VDC outputs)
- Six high current outputs (V1 2V@70A)
- 50 msec hold-up time at full load
- Power Factor correction >0.99
- Low leakage current less than $60\mu\text{A}$ @ 264VAC
- Power fail, Current limit, OTP and OVP protection
- Remote sense, Remote on/off, DC-OK, Reverse connection protection
- Short Circuit protection with auto-recovery
- No minimum load required
- EMI Compliance to CISPR 22 Class B, FCC Class B
